

# JOIN US NOW!

**VOTE HOUSING is a national non-partisan campaign to end homelessness and make housing safe and affordable in Canada. What's more, we know homelessness and housing need were created by public policy.**

**Your vote can end homelessness and housing need.**

## THE CHALLENGE

1.7 million households in core housing need. More than 36% of Canadians have been homeless themselves or know someone who has.

---

## THE OPPORTUNITY

More than 8 in 10 Canadians support building new affordable housing as part of our pandemic recovery, including a significant majority of Canadians who support an urban Indigenous housing strategy.

---

## THE SOLUTION

You and your vote! Voting is our ticket to change. By pledging to vote housing, you're telling political parties and candidates running for election that you want a Canada where housing need and homelessness are a thing of the past.

**VOTE  
HOUSING**
