

CRP Spring 2019 Convention - Bylaw Proposal #2
Bylaw proposal submitted by Matthew Munson

To our rules committee, here is attached my amendment to our bylaws. I personally feel that the cost and expense of our conventions distracts us from using the money possible for campaigns and elections for us to rebuild our status as a party.

To keep things simple, it would mean in 2021 and 2025 we would only meet once a year. With our current rotation it would mean 2020 would be in North, 2021 would be in South and 2022 would be in North while 2023 would be like how we are organizing right now in 2019.

Thank You,

Matthew Munson

San Bernardino County Delegate

The revised language is the following:

2.02.01(B) Frequency of Meetings. Regular conventions and meetings of the Committee shall be held twice during the year after the gubernatorial election and once each calendar year so that the proper business and important activities of the Committee can be carried out. Meetings in years where one convention occurs shall rotate between North and South as designated by Section 2.02.01(A).
