

**Report of the Volunteer Organizations Committee
to the California Republican Party
August 7, 2019**

On August 5, 2019 the Volunteer Organizations Committee received the petition of the California Federation of College Republicans to become a fully chartered volunteer organization of the California Republican Party Charter.

The Committee conducted its investigation in accordance with Section 3.01 (B) (3) of the California Republican Party Bylaws. During the review it was verified that the California Federation of College Republicans met the requirement of being chartered by at least three county Republican parties in three of the party's eight regions, had a minimum of ten chapters comprised of at least ten registered Republicans each, and a statewide membership of a minimum 200 persons.

The California Federation of College Republican submitted its Bylaws, governing documents, charters from county parties and the names and addresses of its officers and members, which were verified through PDI and phone calls by the members of the Volunteer Organizations Committee.

Upon completion of this thorough review, the Volunteer Organizations Committee met by conference call on August 7, 2019 and determined that the California Federation of College Republicans exceeded all the requirements of Section 3.01 (B) (3), with all members present voting to recommend to the delegates that the California Federation of College Republicans' petition for a Full Charter be granted at the September 2019 Convention.
