Mr. Petersen: As indicated to you, Board Informatives are confidential communications. You are correct in citing Gov. Code Sec. 6255 which states the following:

"if a record contains both factual and deliberative materials, the deliberative materials may be redacted and the **remainder of the record must be disclosed.**"

However, this same section continues with the following.:

"... **unless the factual material is inextricably intertwined with the deliberative material.**" Board Informatives are directly correlated to the deliberative material and redactions would not apply.

Ms. Sandoval:

In your response to my Public Records Act request, you quote from Gov. Code §6255 which states: "if a record contains both factual and deliberative materials, the deliberative materials may be redacted and the **remainder of the record must be disclosed.**" It is clear from Mr. Gomez' email to Mr. Bauer that the Charter School Division was requesting factual information in order to write their report. I am, therefore, appealing your decision and asking for the factual materials included in both the Board report and the emails leading to this report. I understand that the District retains the right to redact the deliberative materials from this report.

I would like to remind that the code you have cited does not prohibit your office from releasing the deliberative material, it simply provides you the option of doing so. Therefore, I would also like to appeal your decision to do so based on the fact that this report was generated in response to my public comment before the Board. I should, therefore, be given the courtesy of receiving the results of the inquiry that I initiated.

Sincerely,

Carl Petersen
