

From: MARY CARTER
Subject: public contact for COI

thank you for the meeting today but this needs to be moved to IN person as soon ASAP. I needed to hear and see all the information and the sight keep going off line than I would loose parts of the presentation. the slides moved fast so i missed parts of that. I need you to know that we will need the mapping help and need to be there. ten years ago I had four one hour sessions untill we had the right numbers for what we needed. also meeting on line you only have a few people in person we had hundreds each meeting and I went to four. Still need to know when we will have the numbers we need to create a Congressional district
