Subject: Nevada county

Hi I'm not real happy that my blue county is split..... we have LaMalfa in grass valley / Nevada city..... then truckee is in McClintocks district, so basically our blue county is really not represented..... maybe you could put all of Nevada county In McClintocks district, because LaMalfa does not represent us, or create another district where Nevada county is with Chico in a new district.

As a large state we really do deserve more representatives in the house, it also doesn't seem fair that we only get two senators

Thanks

Denise martin
