Hello,

I am writing on behalf of a candidate who is interested in running for Congress in the 2022 elections. Currently he lives in the 50th congressional district, representing portions of San Diego and Riverside Counties. Is there a deadline (or at least a timeline) for when the redistricting goes into effect? Will there be new district boundaries by the time we file the paperwork at the end of 2021, or will the new boundaries not go into effect until a future election?

Thank you!
