Subject: Redraw District lines
To: votersfirstact@crc.ca.gov <votersfirstact@crc.ca.gov>

To whom it may concern,

As the redistributing process continues, I urge representatives to take environmental justice issues into account. District lines often diverge from shared community experiences and trials such as poor water quality, air quality, access to food, and quality of education. Policies do not evenly or equitably impact communities facing shared hardships due to their respective district lines. Please redraw them to alleviate environmental and social disparities to help those most impacted by noise pollution, air pollution, poor water quality, proximity to polluting industries, minimal access to food and green spaces, proximity to public transit, and more.

Thank you,
Satchi Thockchom
