[Samuel Sukaton](#) left feedback on [Contact](#)

“Hello! Sam from California Environmental Voters Education Funder (formerly CLCVEF) here. I want to thank the Commission and staff for their thoughtful visualizations of COI testimony and I look forward to continuing engagement as we move through this process. I was particularly excited by the 210 communities corridor that reflects some of our earlier engagement with you and the 2011 Commission. I'm writing to request that the CRC to post the shapefiles from previous hearings and this week's hearings publicly. Not only would this be in character the Commission's clearly-demonstrated commitment to transparency, but it would help the public understand the areas under discussion by eliminating uncertainty from figuring out where lines begin and end. Speaking as one of those interested public, I recognize that it's a lot of data to share, but I have trust in your capacity (and that of those of us following these visualizations!) to...bear the load. As ever, I, EnviroVoters, and the broader environmental, conservation, and climate advocacy communities remain deeply grateful for your continued leadership and hard work on a more-historic-than-usual redistricting process. Respectfully, Samuel P. Sukaton ”
