“Just wondering if you happen to consider the Registrars of Elections around the state when you make your decisions. Asking for an extension to January 15, 2022 to submit the final maps? Sigs in lieu for the June 2022 election start in February, and this proposal will jeopardize the elections offices from ensuring that all candidates (for sigs in lieu and nomination period) and voters are in the correct districts. Stop wasting time! If you truly feel that all votes matter, you will complete by December 15, 2021.”
