Hello,

I understand that California’s federal and state legislative maps will be redrawn. I’m interested in registering what I consider my ‘communities of interest’. I live on the North Coast and it is one of those communities of interest, a place where we share a similar climate, ecosystem, economy and environmental challenges.

I have some paperwork in front of me that discusses the redistricting, listing the North Coast as Zone A. Since the state’s constitution requires that redistricting preserve ‘communities of interest’, I’m asking that you preserve Zone A as a unit in the redistricting.

Thank you.

Sincerely,

Marion Nina Amber
