Public Comment re Redistricting

Dency Nelson
To: votersfirstact@crc.ca.gov

Dear CA Citizens Redistricting Commission:

As a 38-year resident and homeowner in Hermosa Beach, which is currently the 66th AD, the 26th SD, and the 33rd CD, I have lived and voted in 4 iterations of these districts over these 4 decades. The current lines are by far the most fair, most sensible lines of those 4 iterations and I applaud the work of the Commission 10 years ago, and the people of the State of California for deciding on this non-partisan Commission to make these decisions, with carefully formulated guidelines, rather than leaving it with our State Legislators.

The current lines, for all three districts, create a geographically contiguous strip along our coastline, and recognize the shared commerce, transportation, and even cultural activities of the residents and businesses of this part of our great state. I can’t imagine better lines, and I look at this as an “it ain’t broke so please don’t try to fix it” situation and urge you to do your best to maintain these districts, as much as possible, as they currently exist.

Thank you very much for the work you are doing and for providing this opportunity to comment.

Sincerely,

Dency L. Nelson
