Commissioners, thank you for allowing me to testify today.

My name is Virginia Coriddi and I have lived in Corona for 40 years in the same home, one mile from SR-91 and I-15. I am a homeless advocate, a community organizer, and a jail volunteer. I have three adult children and nine grandchildren that have all attended Corona Norco schools.

Corona is the gateway to Riverside County. In Corona, our schools and transportation are of great importance. We use alternative routes to take us where we need to go because too often the freeways are a mess. The streets we use are Magnolia, Hamner and Ontario Avenue which becomes Temescal which takes us to Cajalco Road.

The communities of Perris, Mead Valley, Good Hope, Lake Matthews and Gavilan Hills are along Cajalco Road. Also, two very large shopping centers, The Crossings and Dos Lagos are on or near Cajalco Road. Please consider bringing these communities into our district as well as the remainder of Temecula.

Perhaps you could omit the eastern branches that are not along this transportation route.

Above all please keep Corona, Norco and Eastvale together as we share a K-12 school district.

Thank you all so much for taking the time to consider these requests.

Respectfully yours,

Virginia Coriddi
