Subject: Redistricting / Census Adjustments in San Diego County
To: votersfirstact@crc.ca.gov <votersfirstact@crc.ca.gov>

As you work your way to a final decision on how to assign elected representation for our region, please consider several critical issues important to North San Diego County.

North County is a distinct region within San Diego County. When we refer to the several regions in San Diego (north county, south county, east county, coastal, etc) by their geographic location, it helps to define our sense of community by their shared and common interests such as business, climate, schools, our local chambers of commerce and many other shared interests. Where we live, work & play bring us together as a community.

The cities and unincorporated communities of Vista, Carlsbad, Oceanside & San Marcos share this sense of regional community. Our school districts, public utility services, shared business interests, state university and colleges and the physical separation from other regions of San Diego County have brought us together in a synergistic relationship where decisions affecting one affect all.

I urge you to consider the very essence of community fabric when you looking at North San Diego County and keep the cities and communities of Vista, Carlsbad, Oceanside and San Marcos together with respect to elected representation.

Respectfully,
Ed Musgrove, Councilmember
City of San Marcos
