Subject: Visualization map for City of Pomona
To: <votefirstact@crc.ca.gov>

Dear Commissioners,

I am requesting that the California Redistricting Commission reconsider the "visualization map" for the City of Pomona. One map shows Pomona inside a boundary with Upland and Rancho Cucamonga. Another map shows Pomona in an area with Claremont and Upland. My concern is that Pomona is being combined with cities that are very different both economically and demographically. For example, Rancho Cucamonga is considered one of the wealthiest cities in San Bernardino County and Pomona is considered one of the poorest cities in Los Angeles County. Pomona should continue to be with cities that share the same demographics such as Montclair, Ontario and Fontana. Please amend your map with cities that share the same interests and demographics.

Thank you for your service.
