“My grandma’s cookies weren’t as cut up as Stanislaus County is currently in the State Legislature. Keep Stanislaus whole! We deserve true representation. As a long time resident of Stanislaus who farms, I would like a community that represents others in the farming community. Our annual county agriculture report came out and it shows Stanislaus’ Ag community is worth over 3.4 BILLION DOLLARS. Our farms provide nuts and fruits to not just the USA but to overseas partner countries as well. How does it make sense to cut up a community that FEEDS THE WORLD? We need representation for WATER SECURITY and addresses the poor AIR QUALITY that affects ALL residents. Please keep our farming community together to have representation on both the state and congress levels. Thank you.”
