TO: Redistricting Commission

Please please allow our village to remain intact in all of our districts. We are a senior community, very senior, very active, and while our political parties differ, we are all concerned about our state, our country, and our planet. We routinely have a voting turnout of 80%.

Obviously we would like to remain in our current districts: **Congressional District 45, Senate District 37 and Assembly District 74. We have become well acquainted with these highly capable representatives and hope to remain in their districts.**

Thank you for your good work.
