Hello my name is Wendi Morse and I am from Bellflower.

I am writing today on behalf of my community to have our voices heard in Bellflower. So often I feel we are not heard because we are divided into multiple districts. This redistricting process could be beneficial and equitable to Bellflower if we are included in the greater Long Beach and Lakewood Area.

Long Beach and Lakewood are border cities to our South and we feel a strong connection to our Southern Border. My neighborhood friends spend more time in Lakewood and Long Beach for business, shopping and fun activities. Lakewood Mall and Downtown Long Beach are important draws for many of us. We feel to be a part of the Lakewood and Long Beach communities. Our Representation should reflect that. All three of our cities are neighbors and make up the greater Long Beach area. We border both cities. I grew up in a neighboring city but chose to move to Bellflower we started our family here and have grown deep roots. My children attended school in Lakewood which is a part of the Bellflower School District. Again, ties between Lakewood and Bellflower. I hope the Redistricting process brings all our communities together and has our representation match how our communities already function, that's Together.

Thank You,

Wendi Morse  
Bellflower Resident
