“As a lifelong member of Del Norte County I have seen the effects of our being in Districts 1 and 2. I truly believe that we were better represented while we were part of District 1. Our rural heritage is the common factor with out other District 1 counties and I think we should be moved back to District 1 during the drawing of the new lines. Some say that we are a Coastal County and should remain with the other Coastal Counties in District 2, but a beach line and fishing industry is not what should dictate this decision. Our Lifestyle, our traditions, and our strong local heritage is why we should be grouped with our other rural areas so we can have a common voice in our representative district.
Thank you ”
