Dear Redistricting Committee,

I have submitted 4 maps with links below and attached pdfs. I currently live in Simi Valley in the part of the city that is in CA25 Congressional District and AD38 Assembly District. We have had issues with being the only portion of these districts in Ventura County. The rest of the current districts is in Los Angeles County. There are vastly different regulations for everything from Water to voter registration. All information given to us from our current representatives is from the Los Angeles County perspective and rules. Permits, policies etc are different and it has caused many problems for our community. It has resulted in being the “step children” of the district. We are constantly ignored for lack of knowledge regarding our county. My maps put ALL of Simi Valley back into districts in Ventura County. Thank you for your consideration regarding these districts.
