

Hi –

My name is Joseph Roth, and I'm on the board of directors of the Westwood South of Santa Monica Boulevard Homeowner association (WSSM) in Los Angeles, which represents residents north of Pico Blvd, east of Sepulveda Blvd, south of Santa Monica Blvd and west of Beverly Glen Blvd.

I also represent this area on the board of the Westside Neighborhood Council, a political division within the city of Los Angeles that extends south from the WSSM area to National Blvd and east to Century City.

In the attached/submitted map of the Los Angeles Westside Neighborhood Council, WSSM is the red-highlighted area – designated with Seats 7 & 18.

As an individual as well as on behalf of these organizations, I would like to request that we are grouped with similar neighborhoods like those in Westwood Village and the north side of Santa Monica Boulevard as well as those to the west in Brentwood and Pacific Palisades since we have similar positions and are similarly affected by governmental decisions and policies.

I also would like to voice support for the concept of keeping the WNC and its neighborhoods whole within our congressional and legislative districts. These communities are populated and have been influenced by the faculty, staff, students and alumni/ae of UCLA (and their families) wishing to live in close proximity to the Westwood campus since its opening in 1929.

Thank you,  
Joseph Roth
