

CALIFORNIA IS REDRAWING

Thursday, May 20th | 7:00 P.M

THE LINES

DON'T MISS THE OPPORTUNITY TO LEARN HOW REDISTRICTING IMPACTS OUR STATE, COUNTY and COMMUNITY!

Every 10 years, after a census report is released, a special commission is selected to examine how the population of our state has shifted and how that shift alters the current Congressional seats and state and local government districts. Over time, districts become uneven in size and

redistricting (redrawing) is necessary to make the districts proportional again.

WAVE is honored to have California Redistricting Commissioner, Sara Sadhwani, PhD. personally present to us, the redistricting process, explaining how and why California draws the lines.

THEN, JOIN US FOR A FOLLOW UP MEETING ON COMMUNITY INPUT TRAINING!

After The Commissioner explains the purpose of Redistricting she will leave our meeting, and we will have a training on how we can participate in making our voices heard.

Thursday, May 20th
