

# **BACK THE CEE BILL**

## **Climate and Ecological Emergency Bill**

**ASK YOUR MP TO SUPPORT**

[www.CEEbill.uk](http://www.CEEbill.uk)

We are in grave danger.

We face the worst crisis we have ever had to deal with.

The CEE Bill is an historic opportunity to change course.

12 MPs can introduce the bill in parliament.

However, to make it law, the majority of MPs will need to back the CEE Bill.

The UN has warned of the horrific dangers of global temperature rises. Yet, the Government is still missing most of its climate targets.

Where are the emergency measures to protect and restore nature, which our lives depend on?

Every MP needs to know what awaits if there is continued inaction and that we won't wait around any longer.

Sign up at [www.CEEbill.uk](http://www.CEEbill.uk) to join the campaign and find out more.

If enough of us heed the call, then change becomes possible.

Please put pressure on your local MP to take the CEE Bill seriously and act with the urgency we need.
