

January 2017

INTERNET SUBSIDY

The National Executive has approved financial support of up to \$25 per month for your Local to have internet access. It based this decision on a number of factors such as:

1. Immediate access between Local members and their union representatives or elected officers - independent of the departmental system for purposes of security
2. A means of Local research and gradual reduction of mailed material upon request of the Local
3. Providing help to Locals to financially afford e-mail and web page access.

REQUIREMENTS

1. Local must be in good standing.
2. Local must provide an e-mail address outside of the workplace
3. Local must provide proof internet service in January and July of each year to receive full payment of up to \$25 per month. The deadline for submission is March 1st the following year. (March 1st, 2018 for 2017 internet expense)
4. Local must be responsible to disseminate the information.
5. Local will reimburse, by the monthly check-off, should it stop the internet service prior to the end of period for which it is paid.

Local number

Email address

Location and name of responsible person for e-mail

I agree to this arrangement:

Local President (Print name)
