

Jacques Perrin - NVP NCR Report Oct 2018.  
Submitted Dec 6

NCR Activity

We've established an HRRR Committee. We elected Sister Linda Delaney chair of our committee

Linda has taken on an active role in her capacity as A/NVP supporting members at ESDC. IRCC and the IRB to her credit she's also taken on role in mental health support

Our women's committee held a training event facilitated by the Ottawa women's rape crisis centre. An amazing event. The facilitators really hit the mark. Recommend national entertain hosting for the NE.

We've elected a new regional chief shop steward. Matt Gorley

We raised eyebrows in the region with our "sh\*t just got real". campaign which must say got people talking Not just management other unions as well

We've partaken in consultative meetings with branch executive heads in regards to potential impacts on members regarding restructuring in their respective branches. Impacts as result of modernization, as well as essential services proposals and have assisted national in evaluations given the program knowledge and expertise

We've been championing membership services issues for nine months. Still as yet to be resolved. Unacceptable PSAC shame

We've piloted review of all outstanding NCR grievances and are working with locals in mitigating and addressing each one in order to address and resolve

We are saddened that the PSAC rejected classification grievances which impacted many members. Many of these members counted on PSAC support

We held our fall conference and must admit was a respectful positive well received productive event

Was ill and could not attend the NE fall event due to health issues  
But am here and will continue to be

Finally. I want CEIU and this region's executives to be cognizant this region functions because some people give all of their spare time working up to 18 hours a day to ensure locals get support and members get represented. On top of regional responsibilities making sure obligations are met and that this regions NVP has support in tackling and meeting his respective obligations as well

Thank you to A/NVP Dan Carrière. It has been one hell of a six months on behalf of your NVP, CEIU and Regional Council. Thank you.

In closing, we're looking at forming CEIU first regional cannabis committee and will be seeking national funding ( kidding) I believe BC would support

With respect and solidarity comrades

JLP (Jacques Perrin)  
NVP for NCR
