OCEAN STATE SAFETY LLC

PROPOSAL

The Central Falls Fire Department has requested a calibration and maintenance service contract for their Air Detection monitors. This service will be delivered on site and quarterly.

Service Proposal

Four (4) on-site calibration service calls for one (1) year by factory trained personnel. To include the following: Prime Calibration, System check and/or adjustment according to factory recommended field procedures, all calibrations performed using test equipment traceable to NIST standards in accordance to ISO procedures, includes all labor, travel and materials. Sensors replaced as determined by manufactures specifications and response to gas applied. Batteries replaced as needed. Service shall include, cleaning, calibration, calibration sticker and certificate. Free Monitor rental if unit service takes longer than 5 business days.

Total Cost for 2016 contract -\$1200.00.

Calibration schedule approx months- April-July-October-January 2017

Thank you for the opportunity to work with you,

Christopher Albro
