

CONTRACT

Customer Name: City of Central Falls - City Hall
Street Address: 580 Broad St.
City: Central Falls
State: RI
Zip Code: 02863

Approved as to form and correctness

City Solicitor

The costs of this project includes all labor and materials necessary to install the measures listed in the attached proposal. The customer is eligible to receive an incentive from the Utility Company which will be paid directly to Energy Source by the Utility Company upon completion of this project. Also included in this proposal is the cost of recycling the fluorescent lamps removed as a result of the installation. By signing this agreement customer agrees to provide temporary storage of these materials for approximately 4-6 weeks until removed by a licensed hazardous waste company contracted by Energy Source.

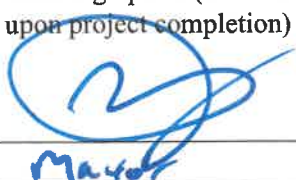

Total Project Cost	\$50,802.99
Utility Incentive	\$13,612.75
Customer Cost	\$37,190.24

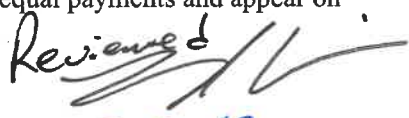

ACKNOWLEDGED AND ACCEPTED

City of Central Falls is in agreement with the scope of work and terms set forth in this proposal and that said services will be provided at the cost listed above.

Unless financing City of Central Falls agrees to pay the net cost of this project in two equal installments:
\$18,595.12 payable upon execution of this proposal and \$18,595.12 payable upon completion of this project within N30 days.

check if using financing option (net cost of project shall be billed in 60 equal payments and appear on electric bill upon project completion)

City of Central Falls - City Hall
580 Broad St.
Central Falls RI 02903

Project Terms & Conditions

- ➔ The costs outlined in this proposal are based on the locations and quantities listed in the attached customer report. By initialing; the customer agrees that a change order may apply if quantities over and above are encountered during installation.
- ➔ This is a "turnkey" project which includes all materials, labor, equipment, disposal costs and permits necessary to install this project.
- ➔ Energy Source is not responsible for existing code violations or unforeseen conditions that may hinder the installation of the proposed measures. Should any violations be identified upon installation they will be brought to the attention of the customer and options can be discussed to remedy the issues.
- ➔ Unless previous arrangements have been discussed; Energy Source assumes normal workday hours (7AM-5PM) to install this project.
- ➔ Energy Source will provide a project manager who will be responsible for coordinating materials and the installation of the proposed measures.

By signing below I am in agreement with the proposed scope of and work terms and conditions described above
