

### **Mary our Model**

*O Blessed Virgin, Mother of God and of us all, be our model. You beheld your infant son with wonder and awe. You watched him grow and taught him all that a child would need to know. You saw things that you didn't understand and contemplated the works of God the Father's hand. You prayed and loved and held these things in your heart. You also do these things for our part.*

*Show us your Son and all that is true. Dearest mother, help us be like you!*
