

Early Learning Program Impact Assessment

Questions to consider when assessing the impacts of the Early Learning Program on your programs and services:

- Will we see increases or decreases in the number of children we serve and in which age groups?
- How many current families are enrolling in the Full-Day Learning program at school?
- Are we concerned our space is in jeopardy because it is located in a school?
- Will we have to increase parent fees and by how much?
- What new services or new age groups could we serve at our centre?
- What is the impact on staffing?
 - Will we have to consider layoffs or lose staff?
- Will there be changes in partnerships or linkages with schools or other organizations?
- Will we have to close programs or rooms at our centre?
- Is our centre at risk of becoming non-viable and we will have to consider closing or merging with another centre?
- see *Child Care Program Overview*
