A PLAN FOR CHILD CARE

- Low Fees or No Fees**
Child care fees are unaffordable for many families. The solution is to cap fees for families and make up the difference with public funding.
- Decent Work**
Educators are the key to quality programs for children. They are skilled and knowledgeable professionals. They deserve professional wages and decent working conditions.
- More Child Care Spaces**
Expand public and non-profit programs so that every family who needs child care can access it.
