Choice Humanitarian Nepal

Supporting the Sustainable Development Goals

1. No Poverty
2. Zero Hunger
3. Good Health and Well-Being
4. Quality Education
5. Gender Equality
6. Clean Water and Sanitation
7. Affordable and Clean Energy
8. Decent Work and Economic Growth

Choice Humanitarian Nepal
The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership.

At CHOICE Humanitarian Nepal, we are actively working to eradicate poverty and end hunger, promote economic development, fight inequalities that impede human development, ensure health and well-being, facilitate quality education, and contribute to tackling climate change in project areas. We are proactively working with local governments to meet the targets and achieve the goals that Nepal Government has identified in its commitment to fulfilling the SDGs. CHOICE Humanitarian Nepal focuses on SDGs #1, #2, #3, #4, #5, #6, #7 and #8.

Our goal is to train community leaders to take ownership of their own development. We work with communities until they are self-sufficient and sustainable, then we exit and they thrive.

CHOICE Humanitarian is about people. With support from our donors and partners, we work with rural communities around the globe ending extreme poverty. We focus on developing local leaders as the basis for sustainable transformation out of poverty.
