

Flight from US to Mexico City
Querétaro Intercontinental Airport (QRO)

OR

Flight from US Irapuato
Del Bajío International Airport (Guanajuato International Airport) (BJX)

We recommend you take some photos of your luggage before the initial check in. This will help in the unlikely event of a loss/misplacement/delay.

Visa/Immigration

While in flight, you should receive an immigration form. Fill it out before you land along with the customs form. You will receive this or a similar form from the flight attendant while on the plane.

You'll need **flight number** (Ex: UA 1500) and your **passport number**. Make sure you mark **tourist**. Your forseen address is _____ (the other general info is self explanatory).

Make sure you have this done before leaving the airplane.

Upon arrival, you will exit your plane and follow the signs to the immigration and customs stands. Just follow the crowd.

Passport must be valid at the time of entry. Tourist Visa are not required for less than 180 days.

When it's your turn, you will simply present your passport along with the completed immigration form. A few quick stamps and you are good to go.

Customs

You will then go to the luggage area to get your bags and exit through customs. This process is also very fast. Simply grab your bags off of the belt and enter a customs line. Make sure you have your baggage ticket. There are agents who will check that the luggage is yours. Should your baggage not arrive, (it can happen-argh!) tell an attendant immediately but do not try to resolve the issue yourself.

Airport Exit

With luggage in hand, begin to exit the Airport. When you exit you will see the CHOICE team with a banner.
