SMART AIM

Increase number of patients ages 0-27 mths who are receiving immunizations, ASQ and lead testing from 20% to 60% by June 30, 2018

Team CCHMC SBHC: Run Charts

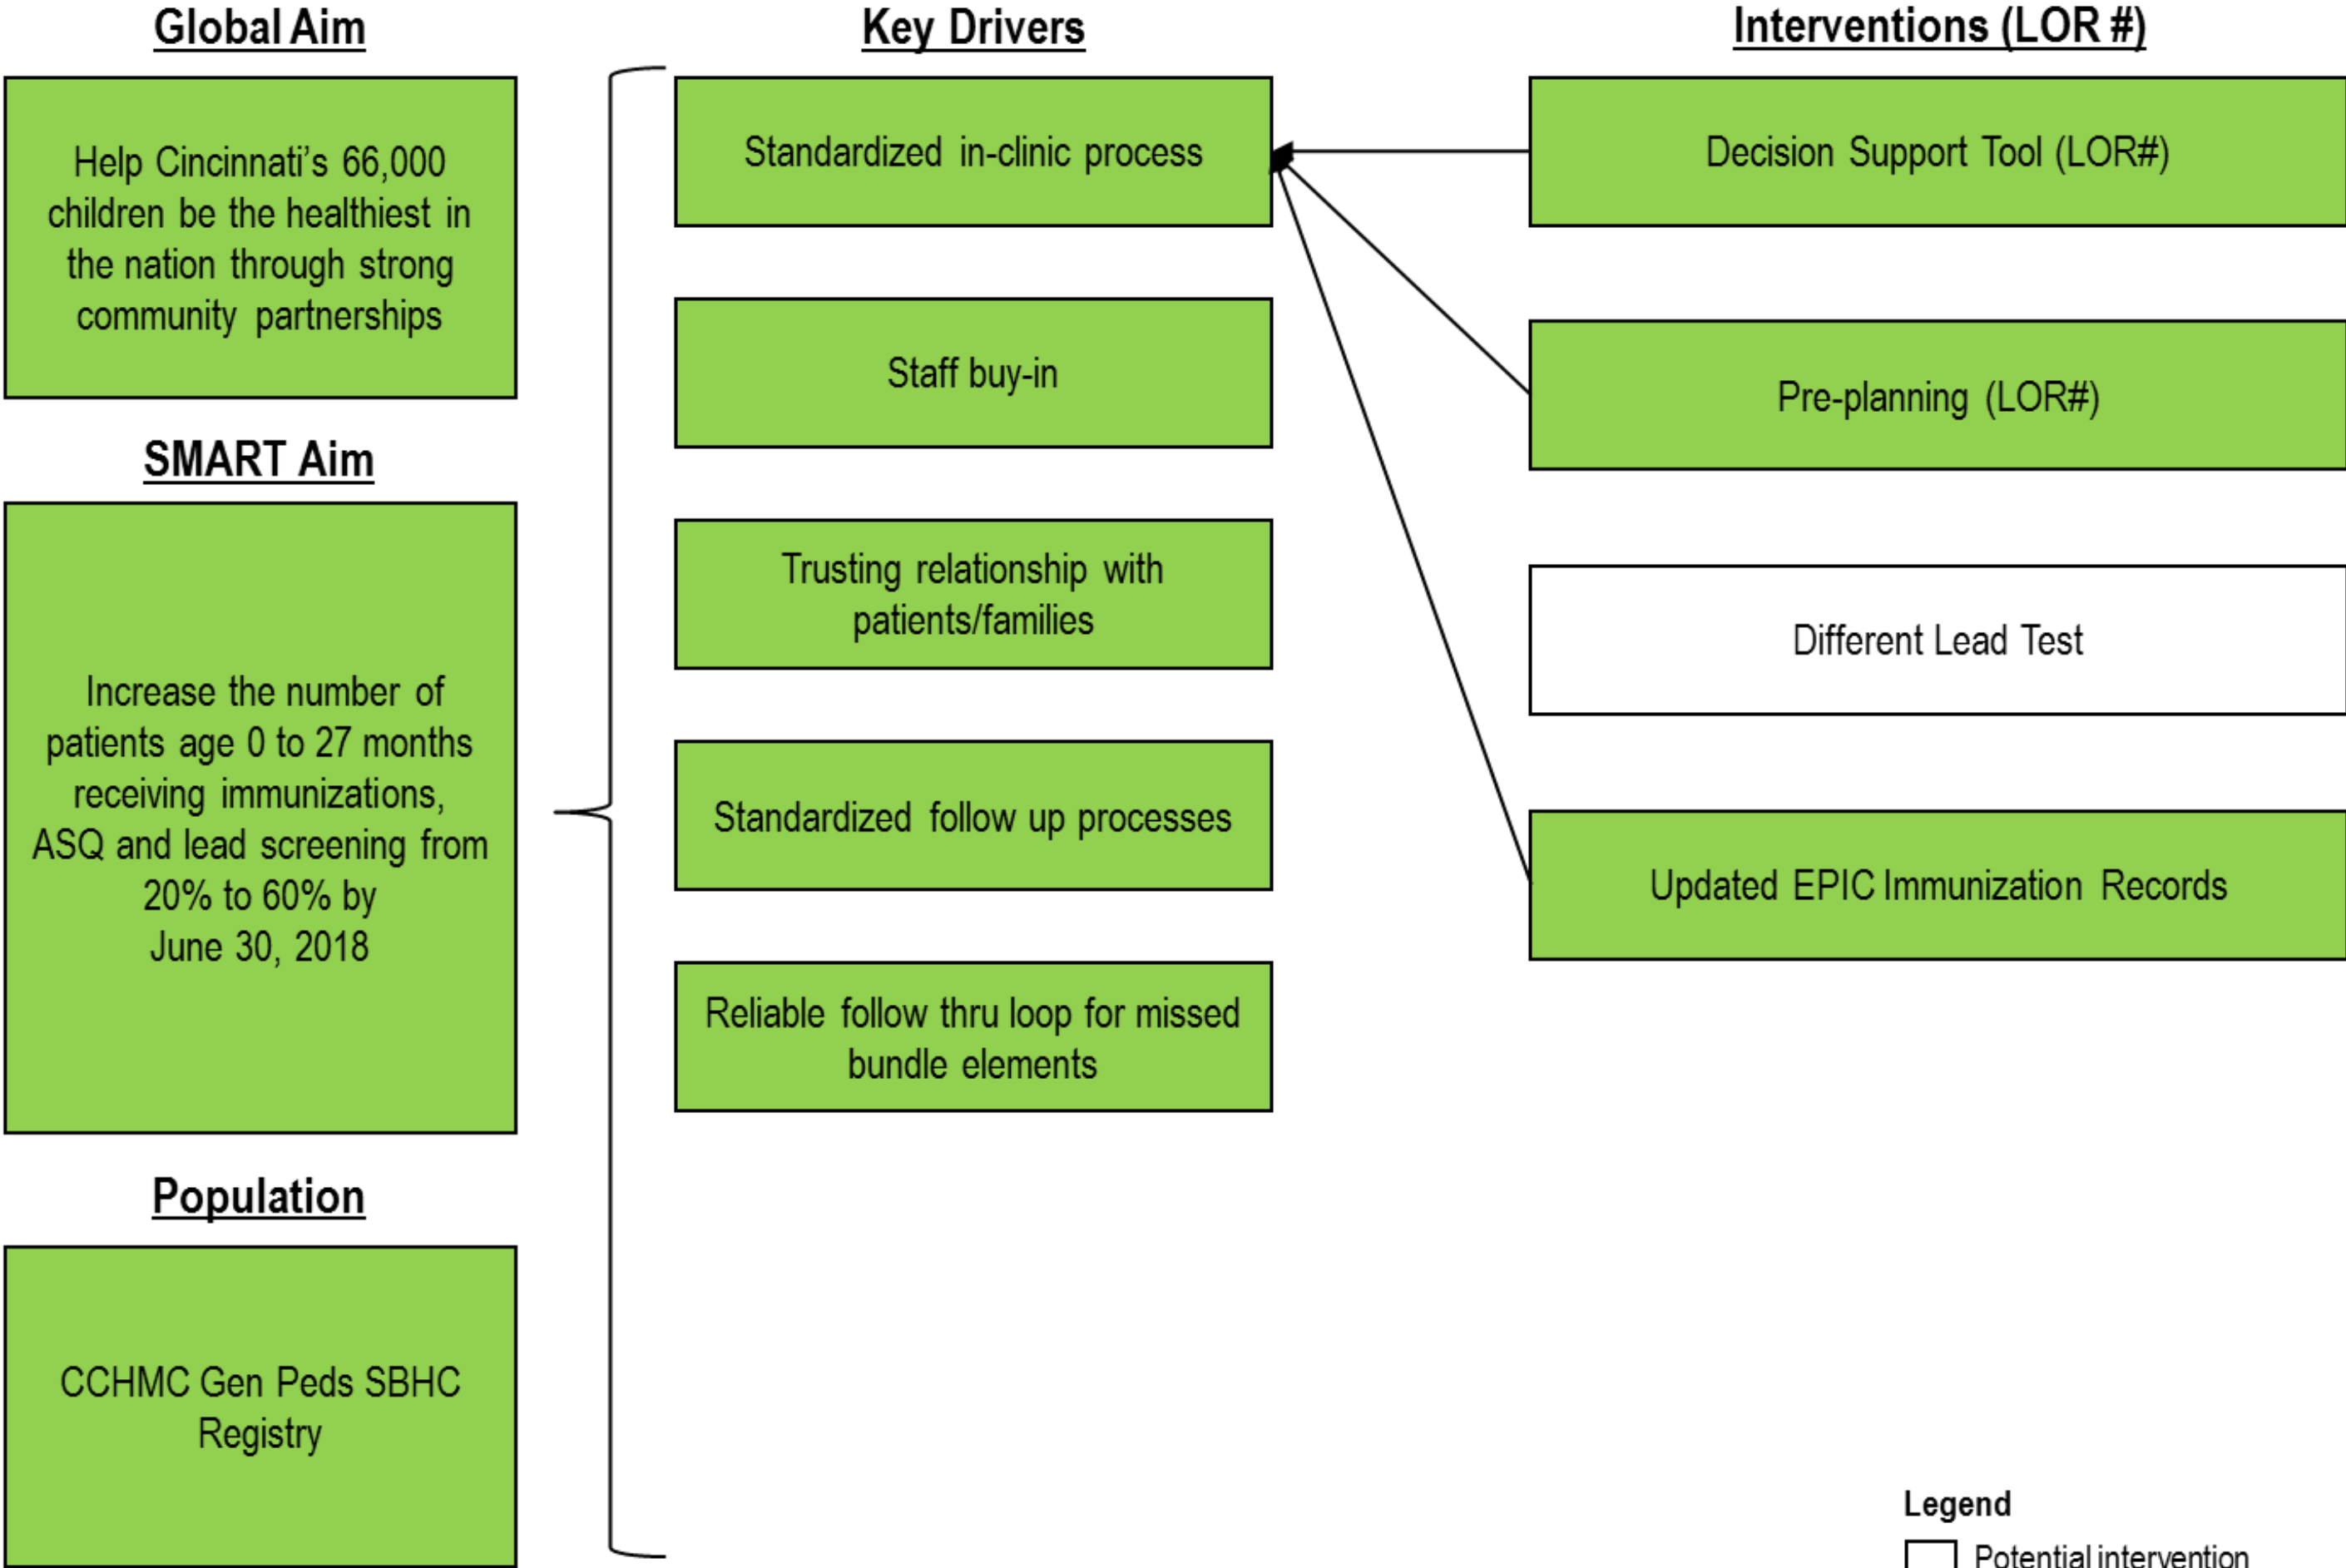

Team CCHMC SBHC: Key Driver Diagram

CCHMC School Based Health Center: Key Driver Diagram (KDD)

Project Leader(s): Lisa Crosby, APN

Revision Date: 02//2018 (v1)

Note: LOR # = Level of Reliability Number, e.g., LOR 1

Legend

- Potential intervention
- Active intervention
- Adopted/Abandoned intervention

Team CCHMC SBHC PDSA Testing

Testing around **Decision Support Tool (DST)**

- Pre planning with use of DST
- New lead screening test

Here's what's working and what we are learning...

- DST is GREAT for identifying bundle elements
- Weekly report of missed opportunities
- New test for lead

Here's what we are struggling with...

- DST is frequently NOT working
- Chart review by APRN when DST is not working
- Need process for entry of immunizations into EPIC for new patients
