6:30 Closing Remarks/Thank You
Colin Parent, Circulate San Diego Executive Director

Special Thanks

Thank you to our 100+ Founding Members, as well as our Circulate San Diego staff, interns, and volunteers who give us so much time and effort throughout the year.
CONGRESSMAN SCOTT PETERS
Congressman Peters is a longtime supporter of Circulate, and of smart mobility and land use policy. He was instrumental in creating the celebrated roundabouts in the Bird Rock neighborhood. As a member of the House of Representatives, he co-authored the “Build More Housing Near Transit Act” to encourage production of homes near transit stops.
Community Nominated Awards

Advocate Award
An individual who has:
- Dedicated a significant amount of time to improving mobility choices, promoting smart growth, and/or facilitating place-making in the community
- Taken on a leadership role promoting these ideals
- Garnered political or community support and/or inspired others in the community to join in their efforts
- Created a demonstrable positive impact in the community

Complete Streets Award
An approved plan, project, program, policy, or private development that:
- Embodies Complete Street principles to enhance and accommodate the use of alternative modes in addition to autos
- Has been implemented or has been approved for implementation by a local jurisdiction
- Will improve the business and residential environment by prioritizing non-car transportation modes
- Significantly improves bicycle and pedestrian safety
- Will positively impact a significant number of people in the community
- Demonstrates the nexus between land use and transportation

Connectivity Project Award
An approved plan, project, program, policy, or private development that:
- Involves an urban trail, path, bridge, underpass or other project that improves pedestrian, bicycle or transit connectivity
- Has been implemented or has been approved for implementation by the local jurisdiction
- Serves as an example locally and nationally
- Garnered community support

Healthy Community Award
An approved plan, project, program, policy, or private development that:
- Facilitates access by walking, bicycling, and transit for persons of all ages, income and ability
- Promotes mixed-use development that links residential, office, commercial, schools, and recreational uses within close proximity of one another
- Creates healthy food/shopping choices in a community
- Serves as an example locally and nationally
- Will positively impact a significant number of people in the community

Community Nominated Awards

COVID-19 Innovation Award
An approved plan, project, program, policy, or private development that:
• Responds to the COVID-19 crisis with an innovative approach, design, or solution addressing transit, active transportation, sustainable urban development, or community-based land uses
• Creates a demonstrative positive impact for the communities affected
• Showcases innovation that can be applied to other areas of the region, the state, or nationally
• Encourages community and stakeholder collaboration and garners community and political support

Public Voice Award
A journalist, news organization, or public watchdog effort that:
• Draws public attention to matters concerning street safety, affordability, or access to transportation choices
• Leads to public policy change to improve transportation and land use outcomes for communities that are often underrepresented in decisionmaking
• Holds accountable elected or agency decision makers who control mobility and land use policy
• Educates the general public on fairness, equity, safety, or affordability related to mobility and land uses

Vision Zero Award
An approved plan, project, program, policy, or individual supporting street safety and Vision Zero which:
• Built and sustained leadership, collaboration and accountability among a diverse group of stakeholders
• Collects, analyzes and uses data to understand trends and potential disproportionate impacts of traffic deaths on certain populations
• Prioritizes equity and community engagement
• Manages speed to safe levels through engineering countermeasures
• Incorporates an education and enforcement campaign for safer streets
• Promotes transparency on progress and challenges
• Sets a timeline to achieve zero traffic deaths and serious injuries
