Regarding the Israeli-Palestinian conflict, the Canadian government has long supported a negotiated settlement providing peace and security for all. However, there have been no negotiations since 2014, and the UN warns of a deteriorating situation. Given the current status, which of the following approaches would make sense for Canada?

Regarding the Israeli-Palestinian conflict, the Canadian government has long supported a negotiated settlement providing peace and security for all. However, there have been no negotiations since 2014, and the UN warns of a deteriorating situation. Given the current status, which of the following approaches would make sense for Canada?
