Global Days of Action on Military Spending
April 14–May 3, 2018

CODEPINK is joining the Global Campaign on Military Spending (GCOMS), an international campaign founded in December 2014 and promoted by the International Peace Bureau after the five Global Days of Action (GDAMS).

The main aim is to reduce global military spending.

In 2016, the U.S. spent **$741.3 billion** on foreign and domestic militarism (64% of the federal discretionary budget) and **$304 billion** went directly to corporations. There are 43 million people in the U.S. who are either living in poverty or have low-income, whose needs could and should be met by the money spent on weapons.

Take the pledge to stop war profiteers from making a killing on killing!
