

ISRAELI WAR CRIMES VIA

Elbit Systems

From Palestine to Mexico #StopElbit RALLY TO BOYCOTT ELBIT Friday, December 7

**11:30 AM–1:00 PM: Meet for rally at Elbit Systems Corporate Office and Factory
220 Daniel Webster Hwy, Merrimack, NH 03054**

**2:00 PM: Petition Delivery to Senator Jeanne Shaheen
Meet at 2 Wall St #220, Manchester, NH 03101**

Elbit Systems is Israel's largest weapons manufacturer. Elbit provides the technology for the surveillance drones that transmit the location of Great March of Return protesters in Gaza to the Israeli snipers and provides radars for the F35 fighter jets that fly over Gaza. Elbit's drones have been used in all major Israeli assaults on Gaza. Elbit is also cashing in on contracts with U.S. Customs and Border Protection to build surveillance towers along the U.S-Mexico border.

From Palestine to Mexico, Elbit is responsible for death and repression. And on top of that, they are buying off Congress, too. New Hampshire Senator Jeanne Shaheen received at least

\$5500 from Elbit in 2018 and a whopping \$300,863 from military contractors in 2018. Join this regional action outside the Elbit office in Merrimack, NH. Afterwards, we will deliver thousands of petition signatures calling on New Hampshire Senator Shaheen to stop accepting money from Elbit and all weapons manufacturers.

Join us to put Elbit and Congress on notice:

Their days of cashing in on violence and oppression around the world must come to an end.
