

PROTEST DRONE ATTACKS

TAKE LETHAL DRONES AWAY FROM THE CIA!

Since the attacks of 9/11, the CIA has been conducting covert drone strikes in Pakistan, Yemen and Somalia, killing at least 3,000 people, including hundreds of noncombatants and even American citizens.

Please sign this petition to Senator Diane Feinstein, chairperson of the U.S. Senate Select Committee on Intelligence, and let her know you want drones taken out of the hands of the CIA! Indicate your level of interest in participating in the Ground the Drones campaign:
