

s^odastream
occupation
isn't green

IN THE NAME OF HUMAN RIGHTS, BOYCOTT!

- » *Buying settlement products directly supports the Israeli occupation of Palestine – Boycott SodaStream.*
- » *SodaStream is made in an Israeli settlement in the occupied West Bank, illegal as all are under international law, yet are stamped "Product of Israel". This fraud supports the process of ethnic cleansing by stealing Palestinian land and natural resources while furthering the economic and military occupation.*
- » *SodaStream markets itself as an environmentally friendly product to "Turn Water Into Fresh Sparkling Water And Soda..." but there is nothing friendly or green about the destruction of Palestinian life, land and water resources!*
