

If you want to load the mobile app to your Android or iPhone, here is the information screen from the Kroger website.

The screenshot shows a web browser window with the URL kroger.com/i/ways-to-shop/mobile-app. The page features a navigation bar with links for Purchase History, Digital Coupons, Weekly Ad, Shopping List, Find a Store, Payment Cards, and Gift Cards. A search bar is present with the Kroger logo and a menu icon. The main content area has a large banner with the text "MOBILE APP" and an illustration of a girl holding a smartphone. Below the banner, a sub-header reads "How to Use the Mobile App". The page is divided into four steps: 1. Download the App: Get the app from the App Store or Google Play. Links for "Download for iOS" and "Download for Android" are provided. 2. Sign In: If you already have a digital account, sign in. If you don't, you can create one quickly and easily. 3. Add Your Shopper's Card: You can create a virtual Shopper's Card within the app. You'll need it to download coupons and get other savings while using the app. A green callout text states: "After you add your Shopper's card to your account, you can go to the link in the mobile app called Community Rewards and set CUFA to get a donation each time you shop." 4. Shop & Check Out: Use Store Mode to browse products by aisle and load digital coupons to your virtual Shopper's Card. At checkout, you can scan the app to redeem your digital coupons and earn fuel points. Below this is a section titled "Mobile App Benefits" with four columns: View Digital Receipts (Available through My Purchases in the app, you can view your digital receipts from in-store, pickup and delivery orders.), Clip Digital Coupons (Want the best coupon deals? Start clipping in the app. Clip coupons to add to your Shopper's Card for in-store, pickup and delivery orders.), Manage Your Prescriptions (See pharmacy notifications, transfer prescriptions and view your prescription history from one convenient location.), and Build a List of Regulars (Repurchase your regular items often? Save time by building your shopping list and cart.). At the bottom, there is a "Quick Links" section.

You will go to Google Play to download the Android app or the App Store for iPhone devices.

The following are the Android screens after you load the app and add your Shopper's Card.
