

“Hey human, are you using your vote wisely?”

Here’s how the parties compare
on **pollution, clean energy** and
protecting nature:

This election **how we vote** will define our future

South Australia is leading the world on clean energy. Now it's time to move on from burning oil and gas and respect and protect nature so everyone – our communities, wildlife, rivers, bushland and oceans – can thrive.

This is an independent guide from an alliance of 33 non-partisan environment and community organisations.

We've scored parties on 36 key environmental priorities. For more detail on how they compare, see www.ourfuturesa.org.au
