

City Unearthed: celebrating Adelaide's Nature within

Frequently Asked Questions

1. Why are we focused on nature in the City of Adelaide?

We are lucky to live in a city nestled between the hills and the sea where we can still enjoy nature on a daily basis. Unearthed is an opportunity to capture and share this richness with the support of Splash Adelaide. The Splash Adelaide grants aim to 'bring the city's spaces to life' by supporting innovative activations, events and projects'.

2. What sort of nature photos do we want to see?

Nature includes landscapes, plants and animals and the places where they live. The focus of 'unearthed' however goes a little deeper and asks entrants to showcase nature's relationship with our city. In particular we welcome submissions that explore themes of how 'nature views the city', 'nature connections' and 'nature's up to something' to flip our usual human perspective on nature in our built environment. We will accept images of both endemic (naturally occur in Adelaide), native (naturally occur in South Australia but not locally) and non-native species however they must not be captive. We understand that nature in the city has changed over time and with tremendous change to the Adelaide Plains and that this will likely continue but nature in our cities will always be precious, important - and at time surprising. After all nature brings our cities to life!

Contact jill.woodlands@conservationsa.org.au if you have questions about the eligibility of your entry.

3. How can I encourage my friends to vote?

Send them The Joinery or facebook link and invite them to share with others. If your family, friends or group want to get involved initiate a walk through the city, parklands or Adelaide Botanic Gardens and see what images you can snap.

4. I am a bit confused about the image resolution you are wanting

We want images that will look good on a website, facebook and in print; if the resolution is approx. 1920 x 1200 pixels the images will be considered for inclusion in the NatureLights exhibition.

We will add to these FAQ's if we receive additional queries.
