Dear Deputy Clerk Peggy Doyle,

Stanford plays an important role in the life of our community. I am writing to express my support for the university's proposed General Use Permit and request that you reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Housing and traffic are critical challenges in our region, and Stanford's Development Agreement proposal makes meaningful contributions to help address these pressing issues. The university's proposal delivers enough new housing to fully satisfy housing demand from its academic development and front-loads the delivery of 575 affordable workforce housing units. This demonstrates extraordinary leadership by a large employer in our community.

In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Rachel Claus

Dear Deputy Clerk Peggy Doyle,

My name is Faisal Memon and I am writing to express my support for Stanford's proposed General Use Permit. I urge you to reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval that will deliver benefits to the community and allow Stanford to further its academic mission.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents.

Housing and traffic are critical challenges in our region, and Stanford is stepping up to help address these pressing issues. Stanford's Development Agreement proposal will provide historic measures to more than meet its obligations in the community—building housing now and fully meeting future workforce housing demand; investing more in transportation programs that encourage sustainable commuting; and providing upfront and ongoing support to the Palo Alto Unified School District.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Faisal Memon

In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Ipshita Sengupta

President Joe Simitian

Members of the Santa Clara County Board of Supervisors

70 W. Hedding Street

San Jose, CA 95110

Dear President Simitian and Members of the County Board of Supervisors,

I am writing to express my support for Stanford's proposed General Use Permit and request that you reach consensus with the university on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents. This past week's community celebrations for the opening of the New Stanford Hospital were a perfect example of how Stanford is partnering with our community.

As a Menlo Park resident, our family greatly benefits from being so close to the Stanford Campus. The sporting events, continuing education opportunities, the open land for hiking, the museums, the music programs, and programs at Memorial Church.

As you are well aware, housing and traffic congestion are critical challenges in our region, and Stanford's proposal makes meaningful contributions to help address these pressing issues. The university's Development Agreement proposal to deliver enough new housing to fully satisfy housing demand from its academic development and front-load the delivery of 575 affordable workforce housing units demonstrates extraordinary leadership by a large employer in our community. In addition, Stanford is proposing to significantly expand its

sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

For Stanford to provide front-loaded community benefits and thousands of units of housing, the university must be confident that it will be able to complete its academic facilities over time and the rules governing future academic campus development will not be changed midway through implementation of a new General Use Permit. Development Agreements are a common tool for land use applicants and jurisdictions to resolve conflicts by working collaboratively to address the interests of all stakeholders. Therefore, I ask that the County engage in constructive Development Agreement discussions with Stanford to provide benefits that address the interests of the community, while providing Stanford the necessary predictability to fulfill its academic mission.

I also urge the Board of Supervisors to approve reasonable and feasible Conditions of Approval for the General Use Permit that will allow Stanford to build new on-campus housing and academic facilities. It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. The Board should work with Stanford to make sure that each of the conditions is clear and sets an objective, reasonable standard for compliance.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County, and Stanford.

Sincerely,

Maggie Pringle

**Subject:** [EXTERNAL] Stanford GUP

September 17, 2019

President Joe Simitian  
Members of the Santa Clara County Board of Supervisors  
70 W. Hedding Street  
San Jose, CA 95110

Dear Supervisor Chavez, Cortese, Ellenberg, Simitian, and Wasserman,

I am writing to express my support for Stanford's proposed General Use Permit and request that you reach consensus with the university on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

As a longtime member of the Santa Clara County community, I have seen the evolution of the discussions regarding the GUP over the years and ask that you please step forward to be constructive and supportive of a solution that does not try to take advantage of Stanford whose contributions to our County are remarkable.

Stanford plays an important role in the life of our community. Our family is cared for by Stanford hospital and physicians. We spend our weekends enjoying the arts, the sports and the beautiful outdoors provided by the University. We remain in the area due to the vibrant academic and intellectual environment that the University creates.

We are very concerned about traffic and congestion in the area. But having attended meetings with various constituencies, we think that Stanford is doing a great deal to help address these pressing issues. In fact, we would observe that they are going well beyond many of the city and corporate contributions and mitigations toward the traffic issues. The university's Development Agreement proposal to deliver enough new housing to fully satisfy housing demand from its academic development

and front-load the delivery of 575 affordable workforce housing units demonstrates extraordinary leadership by a large employer in our community. In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 billion in local transportation improvements.

And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools. My wife and I find this truly remarkable.

For Stanford to provide front-loaded community benefits and thousands of units of housing, the university must be confident that it will be able to complete its academic facilities over time and the rules governing future academic campus development will not be changed midway through implementation of a new General Use Permit. A Development Agreement also makes sense because it enables everyone involved to resolve conflicts, and instead work together to make a positive impact. Therefore, I ask that the County engage in collaborative Development Agreement discussions with the university to provide benefits that address the interests of the community, while providing Stanford the necessary predictability to fulfill its academic mission.

I also urge the Board of Supervisors to approve reasonable and feasible Conditions of Approval for the General Use Permit that will allow Stanford to build new on-campus housing and academic facilities. It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. Stanford can't be expected to provide thousands of units of new housing and at the same time prevent residents from driving. Families living in the new housing will need to run errands, visit friends and family, take kids to practices and play dates, and do all of the other things that members of our community do. The local housing is likely to greatly reduce the commute traffic however and that seems key.

Rather than imposing new traffic standards that will prevent Stanford from building academic facilities and housing, I ask that the Board of Supervisors return to the traffic mitigation measures identified in the County's December 2018 Final EIR. The EIR's mitigation measures will address traffic that has the greatest effect on our community - during peak hours in the peak direction, without shutting down academic and housing development. I also ask that the Board of Supervisors work with Stanford to make sure that each of the conditions is clear and sets an objective, reasonable standard for compliance.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County, and Stanford.

Sincerely,

Jeffrey Bird

Bluebird Ventures

Dear Deputy Clerk Peggy Doyle,

Stanford plays an important role in the life of our community. I am writing to express my support for the university's proposed General Use Permit and request that you reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Housing and traffic are critical challenges in our region, and Stanford's Development Agreement proposal makes meaningful contributions to help address these pressing issues. The university's proposal delivers enough new housing to fully satisfy housing demand from its academic development and front-loads the delivery of 575 affordable workforce housing units. This demonstrates extraordinary leadership by a large employer in our community.

In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Benjamin Horn

Saratoga, CA 95070

**Subject:** [EXTERNAL] Reach Agreement with Stanford

Dear Deputy Clerk Peggy Doyle,

My name is Jeremy Smith and I am writing to express my support for Stanford's proposed General Use Permit. I urge you to reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval that will deliver benefits to the community and allow Stanford to further its academic mission.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents.

Housing and traffic are critical challenges in our region, and Stanford is stepping up to help address these pressing issues. Stanford's Development Agreement proposal will provide historic measures to more than meet its obligations in the community—building housing now and fully meeting future workforce housing demand; investing more in transportation programs that encourage sustainable commuting; and providing upfront and ongoing support to the Palo Alto Unified School District.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Jeremy Smith

Redwood City, CA 94062
