September 19, 2019

President Joe Simitian  
Members of the Santa Clara County Board of Supervisors  
70 W. Hedding Street  
San Jose, CA 95110

Dear President Simitian and Members of the County Board of Supervisors,

I am writing to express my support for Stanford's proposed General Use Permit and request that you reach consensus with the university on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents.

I am both a former student of Stanford University as well as a former resident born and raised in Northern California. I have seen first hand as a resident and a student, how Stanford is an excellent caretaker to the area with its wonderful developments. Its buildings and roads are always kept in top condition with reliable maintenance. The quality of buildings are always so beautiful and fit in perfectly with neighboring buildings. I have always counted myself lucky to have lived in such a beautiful place filled with projects built to the highest of standards. You really feel respect from the university with how well it treats its students, professors, staff, employees, and residents.

As you are well aware, housing and traffic congestion are critical challenges in our region, and Stanford's proposal makes meaningful contributions to help address these pressing issues. The university's Development Agreement proposal to deliver enough new housing to fully satisfy housing demand from its academic development and front-load the delivery of 575 affordable workforce housing units demonstrates extraordinary leadership by a large employer in our community. In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

For Stanford to provide front-loaded community benefits and thousands of units of housing, the university must be confident that it will be able to complete its academic facilities over time and the rules governing future academic campus development will not be changed midway through implementation of a new General Use Permit. Development Agreements are a common tool for land use applicants and jurisdictions to resolve conflicts by working

collaboratively to address the interests of all stakeholders. Therefore, I ask that the County engage in constructive Development Agreement discussions with Stanford to provide benefits that address the interests of the community, while providing Stanford the necessary predictability to fulfill its academic mission.

I also urge the Board of Supervisors to approve reasonable and feasible Conditions of Approval for the General Use Permit that will allow Stanford to build new on-campus housing and academic facilities. It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. The Board should work with Stanford to make sure that each of the conditions is clear and sets an objective, reasonable standard for compliance.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County, and Stanford.

Sincerely,  
Megan Donahoe

1400 20th St. NW  
Washington, DC 20036

Dear Board Operations Board,

I am writing to express my support for Stanford's proposed General Use Permit. I urge you to reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval that will deliver benefits to the community and allow Stanford to further its academic mission.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents.

Housing and traffic are critical challenges in our region, and Stanford is stepping up to help address these pressing issues. Stanford's Development Agreement proposal will provide historic measures to more than meet its obligations in the community—building housing now and fully meeting future workforce housing demand; investing more in transportation programs that encourage sustainable commuting; and providing upfront and ongoing support to the Palo Alto Unified School District.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Jessica Allister

Palo Alto, CA 94305

**Subject:** [EXTERNAL] Sharing My Support for Stanford

Dear Board Operations Board,

Stanford plays an important role in the life of our community. I am writing to express my support for the university's proposed General Use Permit and request that you reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Housing and traffic are critical challenges in our region, and Stanford's Development Agreement proposal makes meaningful contributions to help address these pressing issues. The university's proposal delivers enough new housing to fully satisfy housing demand from its academic development and front-loads the delivery of 575 affordable workforce housing units. This demonstrates extraordinary leadership by a large employer in our community.

In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Jennifer Shannon

Sunnyvale, CA 94086

**Subject:** [EXTERNAL] Re: Sunnyvale Shelter Attention: HLUET Committee and Santa Clara Board Of Supervisors

Good Evening HLUET Committee and Santa Clara Board Of supervisors Sup. Mike Wasserman, Sup. Cindy Chavez, Sup. Dave Cortese, Sup. Susan Ellenberg, Sup. Joe Simitian

I Mila Romero, a Sunnyvale Client Collaborative Member, Former Homefirst Resident, Current Sunnyvale Clients Collaborative Representative Sole Executive Board and Committee, President of and to the Sunnyvale Clients Collaborative write to you this evening in concern and request of preservation of the residents voice, all residents rights, right to vote in representative nominee electors, right to engage in meetings from their perspective mats within the facility (Families Included), enforcement of a no retaliation policy to the residents, families or singles of the facility or members of the Collaborative, free from harassment, collaborative duty to inform, clients right to be informed notified of policies, procedures and practices that effect them in consenting or not consenting to terms regulated and implemented by homefirst done in maleficence, to be granted immunity to not be denied services when reporting, whistle blowing mal practice and/or human rights violation, requesting to adopt universal bylaws similar to how the Board of Santa Clara currently operates and governs the community when working with the public in passing laws, that the Collaborative members and/or reports made by clients or collaborative members regarding Homefirst personel (Greivances, Reports, Appeals) are sent to you directly for oversight regarding actions taken or if resolution was implemented.

To date as a member I have always implemented the right of all clients engagement the biggest challenge faced has always been RETALIATION unresolved Grevencies, wrongfully terminated/discharged families.

Currently I am being harrassed and retaliated against for exerting the core concerns in preservation of clients voice, rights in advocacy expressed recently at the August 15th 2019 HLUET meeting, I submitted a written form of my concerns for the residents and challenged Homefirst to keep their word made to you that they would uphold their official promises and standards in caring for the residents with dignity and respect, to date they have not done so I have been active since October 2017, residents have been treated like animals, no adequate nutritional food (most of the great food comes from outside vendor organizations of worship and the community only not Home first), water, hygeine products, delayed service request for washers, broken sinks, case management needs all have gone un provided by Homefirst.

Denial of services, wrongful discharge of families, biased advocacy, petty theft of donations donated to clients by long standing onsite management and staff, mis management of the facility by the current onsite manager the lists goes on the included are valid issues that have gone un addressed

YES I STILL Support Michelle's Operational plan, I do not trust that the Homefirst staff will implement her plan to date they have demonstrated implementing practice, policies and procedures harmful to the clients without her knowledge which is the reason I hold to the Collaborative, there has been many reports of persons and their families being physically threatened by Homefirst onsite management, their property destroyed thrown out, discarded, slashed tires, refusal of services one night I was on stand by with the local police department as families had been kicked out of the facility wrongfully with no where to go in the middle of the night! (This happened to one of the Collaborative members whom participated in meetings and voiced their concerns) after me and another advocate informed officers of the wrongful discharge Kelcy finally let them back in just to turn around and retaliate against the family, Persons denied housing if they dont adhere to compliance of not reporting what is being done to persons at the facility once they adhere housing opportunities surface.

I've always held our meeting in the center of the facility for all to engage, as most persons prefer to engage from their Matt's where they are comfortable, our meetings have been relocated within the facility because they do not want mass participants to engage in our meetings.

I have always conducted surveys collecting data and forwarded to head of operations for review this was the initial blueprint beginning of client recommendations, resource needs, this information included randomly recieved management complaints, un informed policy changes, unfair practices, resolution recommendations of complaints, issues that are concurrent and gone unresolved

Request to adopt the above and its entirety

I sent a letter of concern to personel at 5pm today, I recieved correspondence from HomeFirst requesting I sign a volunteer agreement, to date No agreement in place covers my advocacy with The Sunnyvale Client collaboratives, The volunteer agreement is for food handler volunteers only in which I'vesigned in the past and was placed in Null and Void for all advocates as the agreement did not pertain to me and my type of advocacy, the Advocacy agreement made by Shaunn Cartwright and Rene of Homefirst is for Homefirst advocacy whom would have to be in goodstandings with Kelcy onsite management and report to Kelcy whom could discharge you for any reason, I declined this agreement as I never answered to Kelcy as the Sunnyvale Client collaborative have always been independent operation of Homefirst and I have not been in support of what Kelcy has done to the residence of the facility therefore I am never in good standings, so declined to sign.

I request to continue my term without Harrassment from HF employees, affiliates or staff until recommendations are due next for submission to HLUET and the 120 day stay is officially implemented, I request that a special Advocacy Agreement is made for my type of advocacy as a Sunnyvale Client collaborative advocate independent of Homefirst.

I also advise if you could review the enclosed email in its entirety as this is one of many attempts made to rid and denounce me of the Collaborative. To date for the Record I HAVE NOT DENOUNCED RENOUNCED my Presidency Status!

Thank you,

Sincerely,

Respectfully,

Mila Romero

Sunnyvale Client Collaborative President

On Wed, Sep 18, 2019, 5:56 PM Mila Romero <[mila.i.romero@gmail.com](mailto:mila.i.romero@gmail.com)> wrote:

Lets be very clear I do not Represent the Private Table you have recently built in my absence, I represented and represent the Clients of the facility, their rights, their voice, their engagement in their entirety! The first time I advised for you all to meet without Advocates and myself was to discuss your proposed bylaws you Failed that request and allowed 2 advocates at the table with no recorded minutes, in addition you proposed additional entries to the bylaws without approval trying to block persons from voting, block me from maintaining and preserving the peoples voice including my own!

In addition you've added terms and terminology to the bylaws that the clients do not understand and because I understood what you were trying to do and expressed why it was a selfish act for your private table to disclude families and other singles from your faulty bylaws and self appointed elected nominees you tried to block me further! In every election all persons have a right to know, be informed of nominees so they may have the right to vote who will be representing them in good Faith! Provingly that is NOT YOU nor YOUR PRIVATE TABLE

What I did Express is that Shaunn Cartwright was trying to make me an advocate under HomeFirst rules having to answer to Kelcy a faulty onsite manager in which I refused her offer as I am not an employee of Homefirst nor an Advocate for HomeFirst, I also rejected the Home First Volunteer agreement and Rene Made it Null and Void as the Volunteer agreement was for food volunteers only, there was never a class for me because I was and am a post resident, Sunnyvale Client Collaborative Member/Advocate and President I also expressed that I would not be able to

attend every stakeholder and/or Shelter workers Group meeting due to my school schedule in addition I Never formally denounced myself according to this email thread you attempted to do it for me! This is not about me re running for presidency this is about failure to maintain and preserve the standing advocacy of the Clients

You know very good, well that I confirmed the Agenda for this weeks meeting Stated That you needed a body Of electives to include: President, Vice President, Secretary and/or Treasurer I stated this twice, as to date we have not had a body because you and many others did not step up in taking interest in the position You have manipulated the By Laws that you and I initially created and cut out bylaws that were existing, in addition you added many of things to your revised by laws that intentionally discarded my involvement, position as it stood and the rights to the clients of the facility to be informed and engage on plans that you and a handful of persons were implementing without knowledge! You have proven to me that the Voice of the people as of whole is not of significant importance to you or anyone that was listed in attendance for this private vote! THAT IS A BIG CHARACTER FLAW! How dare you tell me that "it's time for you to move on and never come back. I will fight you every inch of the way from here on out." Guess what Gary I will be fighting back for the rights and preservation the peoples voice and my own!

On Wed, Sep 18, 2019, 1:11 PM Gary Martin <[bulldog4857@gmail.com](mailto:bulldog4857@gmail.com)> wrote:

Mila - the people in open meeting -- the people you claim to represent -- requested greater distinction between types of members so

different rights could be assigned. Not I nor any advocate prompted this. I added Class E to specifically cover YOU as you were not covered any other way.

As I recall you said this Thursday would be your last meeting -- that you were done. You cannot be president and not attend meetings.

it's time for you to move on and never come back. I will fight you every inch of the way from here on out.

Gary

On Wed, Sep 18, 2019 at 12:50 PM Mila Romero <[mila.i.romero@gmail.com](mailto:mila.i.romero@gmail.com)> wrote:

No I disagree with this letter and all of its content first and foremost I DID NOT DENOUNCE MY PRESIDENCY! And who are you to make that call, secondly your bylaws in which you personally included class E should have never made it to the by law document as it was never present nor placed until you randomly included it! Thirdly your said bylaws were not in effect for you to use the 2 meeting attendance rule, your by laws that you placed together were never confirmed or approved by me to begin with, what you have done is discluded myself and all the residence of the facility of a right to engage and vote that is not democracy that is DICTATORSHIP WITHOUT AUTHORITY to date you have refused a position such as VP secretary etc. Yet decided to act as one not even holding office position to make any of the decisions outside of what was instructed for you all to do, My words in exact were that you all meet without advocates including myself your position was to oversee the meeting acting interim to move the mating NOT EVER STATED TO MOVE A PASS FOR PRIVATE VOTE, to prepare your bylaws including engagement from the residents, form your body of said electives as you had No body but A person the private table delagated as a nominee whom demonstrated and stated that all he wants to do is be president so that he may attend the county meetings! You were to present your nominees to the people (Residents) informing them of your proposed electives and you have failed to do that!

the biggest mistake you have made was by is not including the residents, yes you did jump the gun by making motion to vote that was not your decision or call to make nor was it approved so your voting session is null and void!!

How dare you do such a thing Gary!

I will see you tomorrow for review of bylaws, body elected nominees your bylaws are Not in effect!

On Wed, Sep 18, 2019, 11:19 AM Gary Martin <[bulldog4857@gmail.com](mailto:bulldog4857@gmail.com)> wrote:

Good Morning Mila --

I am please to inform you that the bylaws are complete and adopted by unanimous vote of the below listed Collaborative members. The text is the same as I passed out last week with the exception

that the group decided to remove Class E membership and rights because you would be the only person covered by that and you have announced your resignation from the Collaborative. It seems unlikely there will ever be another person fitting Class E.

I may have jumped the gun on calling for a vote last night as I recalled later that the plan was to vote tomorrow night.

However, it is harmless because we voted by roll call and recorded how each member voted.

It is possible and even desirable to open voting on Thursday for any clients not present at last night's meeting who wish to go on record with a yay or nay. Notably these are Sherice, who was said to be in the hospital with breathing problems, the blonde lady with the baby and yourself.

The meeting was only about 25 minutes because we were pretty close to finished last week. Only clients were in attendance. I tried to limit the attendance of last night's meeting to those who were present the last two meetings

when bylaws were discussed as I didn't want to start over by familiarizing new attendees with the bylaws.

But anyone not present before was welcome to stay and vote. We were blessed that attendance was pretty healthy at

14 members. recorded minutes. She said she would transcribe and give that to me today.

I want you to know that I reopened discussion of Article V's Class A membership qualification stating a prospective member must have attended two meetings in the last six weeks. I argued what I thought your passionate plea of last week is -- that we need a body, as in far more members, to legitimize the Collaborative and the bylaws. Although there was some support for that, after several minutes of discussion the group overwhelmingly decided to keep the language the way it is --- as they had drafted it two weeks back. In the end this is a democratic organization and we must respect the will of the people.

We plan to accept nominations for officers on Thursday and vote the following week. Hope to see you then.

Members in attendance and unanimously approving adoption of attached bylaws.

Best Regards,  
Gary

**Subject:** [EXTERNAL] Sharing My Support for Stanford

Dear Board Operations Board,

Stanford plays an important role in the life of our community. I am writing to express my support for the university's proposed General Use Permit and request that you reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Housing and traffic are critical challenges in our region, and Stanford's Development Agreement proposal makes meaningful contributions to help address these pressing issues. The university's proposal delivers enough new housing to fully satisfy housing demand from its academic development and front-loads the delivery of 575 affordable workforce housing units. This demonstrates extraordinary leadership by a large employer in our community.

In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Han Van Ngo

Santa Clara, CA 95054

**Subject:** [EXTERNAL] Reach Agreement with Stanford

Dear Board Operations Board,

My name is Anne Chen and I am writing to express my support for Stanford's proposed General Use Permit. I urge you to reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval that will deliver benefits to the community and allow Stanford to further its academic mission.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents.

Housing and traffic are critical challenges in our region, and Stanford is stepping up to help address these pressing issues. Stanford's Development Agreement proposal will provide historic measures to more than meet its obligations in the community—building housing now and fully meeting future workforce housing demand; investing more in transportation programs that encourage sustainable commuting; and providing upfront and ongoing support to the Palo Alto Unified School District.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,  
Anne Chen

September 19, 2019

President Joe Simitian  
Members of the Santa Clara County Board of Supervisors  
70 W. Hedding Street  
San Jose, CA 95110

Dear President Simitian and Members of the County Board of Supervisors,

I am writing to express my support for Stanford's proposed General Use Permit and request that you reach consensus with the university on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents. I am a graduate of Stanford University (class of 1991) now living in the Bay Area. I've had the opportunity to experience Stanford in a range of roles: professor, architect, reunion-attendee, and mentor to dozens of students. In my work as an architect in Los Altos, Sunnyvale, San Bruno and other Peninsula cities, I can see first hand the positive contributions that Stanford makes on a daily basis to our regional culture and economy. The ability to serve this community through ongoing building efforts is critical to support all the work that goes on and that is an engine for the reputation and impact the Bay Area has on the world and our region.

My firm, EHDD, was founded in 1946 in San Francisco and has had the privilege of designing and building multiple buildings at Stanford and in Santa Clara county over the decades. We have a deep knowledge of the workings of our local communities and the give and take that is needed to keep our region in a leadership position in our region, country and the world at large.

As you are well aware, housing and traffic congestion are critical challenges in our region, and Stanford's proposal makes meaningful contributions to help address these pressing issues. The university's Development Agreement proposal to deliver enough new housing to fully satisfy housing demand from its academic development and front-load the delivery of 575 affordable workforce housing units demonstrates extraordinary leadership by a large employer in our community. In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

For Stanford to provide front-loaded community benefits and thousands of units of housing, the university must be confident that it will be able to complete its academic facilities over time and the rules governing future academic campus development will not be changed midway through implementation of a new General Use Permit. Development Agreements are a common tool for land use applicants and jurisdictions to resolve conflicts by working collaboratively to address the interests of all stakeholders. Therefore, I ask that the County engage in constructive Development Agreement discussions with Stanford to provide benefits that address the interests of the community, while providing Stanford the necessary predictability to fulfill its academic mission.

I also urge the Board of Supervisors to approve reasonable and feasible Conditions of Approval for the

General Use Permit that will allow Stanford to build new on-campus housing and academic facilities. It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. The Board should work with Stanford to make sure that each of the conditions is clear and sets an objective, reasonable standard for compliance.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County, and Stanford.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Brad Jacobson'.

Dear President Simitian and Members of the County Board of Supervisors,

I am writing to express my support for Stanford's proposed General Use Permit and request that you reach consensus with the university on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents. On a very personal level, I have been a resident in the area for over 30 years and been a part of the Stanford community since 1974. Stanford has been a true gift that keeps on giving, whether it be through the hospital, continuing education opportunities, enrichment through the arts or support for our local schools.

As you are well aware, housing and traffic congestion are critical challenges in our region, and Stanford's proposal makes meaningful contributions to help address these pressing issues. The university's Development Agreement proposal to deliver enough new housing to fully satisfy housing demand from its academic development and front-load the delivery of 575 affordable workforce housing units demonstrates extraordinary leadership by a large employer in our community.
