Dear Board of Supervisors,

I am writing to express my support for Stanford's proposed General Use Permit. I urge you to reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval that will deliver benefits to the community and allow Stanford to further its academic mission.

Stanford plays an important role in the life of our community by advancing teaching and research, providing world-class health care, inviting its neighbors to enjoy many on-campus amenities and working in the community to support local residents.

Housing and traffic are critical challenges in our region, and Stanford is stepping up to help address these pressing issues. Stanford's Development Agreement proposal will provide historic measures to more than meet its obligations in the community—building housing now and fully meeting future workforce housing demand; investing more in transportation programs that encourage sustainable commuting; and providing upfront and ongoing support to the Palo Alto Unified School District.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,
Lauren Koenig

Dear Board of Supervisors,

Stanford plays an important role in the life of our community. I am writing to express my support for the university's proposed General Use Permit and request that you reach consensus with the university now on a related Development Agreement and a set of reasonable and feasible Conditions of Approval.

Housing and traffic are critical challenges in our region, and Stanford's Development Agreement proposal makes meaningful contributions to help address these pressing issues. The university's proposal delivers enough new housing to fully satisfy housing demand from its academic development and front-loads the delivery of 575 affordable workforce housing units. This demonstrates extraordinary leadership by a large employer in our community.

In addition, Stanford is proposing to significantly expand its sustainable commute programs and invest \$30 million in local transportation improvements. And in keeping with its academic mission, the university has also offered \$138 million in support for Palo Alto schools.

I encourage you to work collaboratively with the university to create a long-term land use plan that allows Stanford to continue its mission of taking the world's most pressing challenges and developing innovative solutions to benefit both our community and the world.

It is to all of our benefit if the rules governing on-campus development support teaching and research and the addition of much-needed housing. I hope you will support Stanford's future land use plans and approve a General Use Permit and Development Agreement that meet the needs of the community, the County and Stanford.

Sincerely,
Melanie staggs
