About Co-wheels car club

Co-wheels is the only independently owned national car club, providing low emission, hybrid and electric cars on a pay-as-you-go basis for organisations and communities across the UK.

Trading as a social enterprise means a commitment to improve society and environment.

Our primary focus is to help our members to save money, reduce their impact, and create a cleaner environment by reducing car commuting and ownership.

We do this by making lower impact transport options available to residents, businesses and organisations, and staff.

How does the car club work?

Co-wheels cars are all managed through our telematic system and on-board computers. This allows easy online booking and key-free access to cars with a smartcard.

Cars are parked in convenient locations, and can be hired when needed, from 30mins up to several days at a time.

At the end of a booking, the car is returned to its parking bay, and the business account is charged.

Insurance is covered in the hire costs, with a fuel card in the car to top up the tank when needed.

Car Club benefits

When you join Co-wheels as a driver under your organisation's account, you'll have access to a network of cars parked in towns and cities across the UK, as well as the cars near you.

You'll have your own smartcard and login, so you can book a car yourself, whenever you need one.

There's no need to pay for anything - no business mileage admin and no need to buy fuel (a card is kept in the car). Your organisation picks up all the costs, including membership.

Start travelling to work in more sustainable ways, with a car available at work when you need it.

FREE personal car club membership, so you can use any Co-wheels car for non-work journeys.

How to Join

- 1 Fill out the online application form under 'join an existing account'

Claim your free personal account:

After filling in your form, go back to the join page and click 'create a new account'. Use your work email address, and enter the promo code DUALDRIVER.
Your accounts will be linked and you can use one smartcard

- 2 Complete a quick online licence check

- 3 Your membership pack and smartcard will be sent out

- 4 When your pack arrives, you can book and drive!
