

# SDRM - you deserve the truth.

## what they said...

*21st Jan 2014 WA Police told us that only 5.7 positions would be lost.*

## what they're actually doing

*115 positions will be abolished in Phase 1 alone. That's 20x the original figure.*

## Will your job be abolished?

SDRM was meant to result in greater civilianisation, creating more positions and greater opportunity for Police staff.

### But this is not the case.

WA Police are not being open and honest about the numbers, who will be affected and when. Your Union has been provided with a list of positions that will be abolished and the dates at which those positions will go.

### We are giving them one last chance, in good faith, to be open and honest with you.

If you do not think it is fair that some people will have to wait over a year to find out if their position is secure, when WA Police already know, sign the petition to demand formal notification.
