

What We Do

Our initiative is focused around Gun Violence and Domestic Violence, understanding that they are often intertwined. We recognize that a simple argument and disagreement is sometimes resolved with the use of firearms. In our approach to Violence With Guns, we recognize that a bullet destroys two families and eats at the fiber of a community. In an effort to change the narrative, we work to de-escalate those unfortunate situations.

We do Boots On The Ground Outreach to communities most affected by violence and a multitude of disparities.

We start the journey with outreach and prayer. From there we offer listening circles and 8-week Workshops (one day per week) for fathers and mothers, as well as group/self-esteem building outreach activities for youth ages 8-18.
