

# Fair Labour Laws Save Lives

WITHDRAW BILL 47

I am a resident in your riding and I am calling on you to vote against Bill 47. I am shocked and angered by your government's intention to rollback our new workplace rights, as proposed in Bill 47.

Forcing workers to go to work sick by eliminating paid sick days puts all of us at risk. By reducing fines for employers who violate the law, you are saying it's okay to exploit workers. By cancelling equal pay for part-time and temporary workers you are making life harder and denying fairness to millions. Your plan for the minimum wage means a real dollar cut in wages for the lowest paid workers in Ontario.

Don't turn your back on us. Thousands of people voted for you because we believed you would stand up for us at Queen's Park. But it seems you are more interested in backing Big Business than listening to your constituents.

Please prove me wrong by voting against Bill 47.

Thank you.
