BRING BACK \$15!

Thanks to thousands of people across Ontario taking action, we raised the minimum wage from \$10.25 to \$14.

That's a huge win for all of us!

It means workers have more money to make ends meet and spend in local communities. It also means small businesses have more customers.

But **in 2018**, our decent work movement won even more. For **the first time in Canada, workers got** access to **two paid sick days** and the right to **equal pay for equal work**. We even won a **\$15 minimum wage** that should have taken effect last January 1, 2019.

Unfortunately, when **Doug Ford's Conservative government** got elected, they **cancelled these improvements**. They ignored the majority support for decent work and sided with large corporations that profit from low wages.

These cuts to wages, education, health and the public services we rely on are only just beginning.

Fortunately, people across Ontario are standing up against these attacks. But we need to be bigger and stronger to defend our families and communities.

That why we need you. There's no time to lose.
